Best Value Statement

When making any decision about best value, Governors will apply the following four principles:

1. Challenge – Is the school’s performance high enough? Why and how is a service provided? Do we still need it? Can it be delivered differently? What do parents want?
2. Compare – How does the school’s pupil performance and financial performance compare with all schools? How does it compare with LA schools? How does it compare with similar schools?
3. Consult – How does the school seek the views of stakeholders about the services the school provides?
4. Compete – How does the school secure efficient and effective services? Are services of appropriate quality, economic?

When submitting budgets, the governors confirm that the school has operated in compliance with the principles above.
