

A GUIDE TO ASSESSMENTS AT THE PINVIN FEDERATION

The following assessments are used annually as a test of attainment and progress. The tests produce an age standardised score which we can compare year on year. We have two types of age standardised tests that we operate. We use the Durham University tests and the GL Assessments, with additional summative tests in Reception for communication and language.

The Federation use on-going formative assessment tools to track the extent to which pupils are working towards age related expectations (ARE) – this is completed through Classroom Monitor which is our tracking tool. Pupils are either beginning, developing or secure in terms of the performance indicators, mastery focuses on application of a particular strand.
