COUNTER CYBERBULLYING POLICY

Aims

The policy should be read in conjunction with the Federation E-Safety and Positive Behaviour and Anti-Bullying Policy. It specifically relates to cyberbullying.

Cyberbullying Definition

What is cyberbullying?

"Cyberbullying is an aggressive, intentional act carried out by a group or individual, using electronic forms of contact, repeatedly over time against a victim who cannot easily defend him or herself."^[1]

Seven categories of cyberbullying have been identified:

- Text message bullying involves sending unwelcome texts that are threatening or cause discomfort.
- Picture/video-clip bullying via mobile phone cameras is used to make the person being bullied feel threatened or embarrassed, with images usually sent to other people. 'Happy slapping' involves filming and sharing physical attacks.
- Phone call bullying via mobile phone uses silent calls or abusive messages. Sometimes the bullied person's phone is stolen and used to harass others, who then think the phone owner is responsible. As with all mobile phone bullying, the perpetrators often disguise their numbers, sometimes using someone else's phone to avoid being identified.
- Email bullying uses email to send bullying or threatening messages, often using a pseudonym for anonymity or using someone else's name to pin the blame on them.
- Chat room bullying involves sending menacing or upsetting responses to children or young people when they are in a web-based chat room.
- Bullying through instant messaging (IM) is an Internet-based form of bullying where children and young people are sent unpleasant messages as they conduct real-time conversations online.
- Bullying via websites includes the use of defamatory blogs (web logs), personal websites and online personal polling sites. There has also been a significant increase in social networking sites for young people, which can provide new opportunities for cyberbullying.

What is the Federation approach?

While other forms of bullying remain prevalent, cyberbullying is already a significant issue for many young people. We recognise that staff, parents and young people need to work together to prevent this and to tackle it whenever it occurs.

School Governors, Head teachers and schools have a duty to ensure that:

- bullying via mobile phone or the Internet is included in their mandatory anti-bullying policies, that these policies are regularly updated, and that teachers have sufficient knowledge to deal with cyberbullying in school

We ensure that:

- the curriculum teaches pupils about the risks of new communications technologies, the consequences of their misuse, and how to use them safely including personal rights
- all e-communications used on the school site or as part of school activities off-site are monitored

- clear policies and agreements are set about the use of mobile phones at school and at other times when young people are under the school's authority
- Internet blocking technologies are continually updated and harmful sites blocked
- they work with pupils and parents to make sure new communications technologies are used safely, taking account of local and national guidance and good practice
- security systems are in place to prevent images and information about pupils and staff being accessed improperly from outside school
- they work with police and other partners on managing cyberbullying

ICT and Mobile Phone Policy

If a cyberbullying incident directed at a child occurs using e-mail or mobile phone technology, either inside or outside school time, we will take the following steps:

- Principle approach is in line with E-Safety breaches and sanctions as highlighted in the E-Safety Policy but on a day to day level actions will involve:
 1. Advise the child not to respond to the message
 2. Refer to relevant policies, e.g. e-safety/acceptable use, anti-bullying and PSHE and apply appropriate sanctions
 3. Secure and preserve any evidence or device
 4. Inform the sender's e-mail service provider
 5. Notify parents of the children involved
 6. Consider informing the police depending on the severity or repetitious nature of the offence. The school recognises that some cyberbullying activities could be a criminal offence under a range of different laws including: the Protection from Harassment Act 1997; the Malicious Communication Act 1988; section 127 of the Communications Act 2003 and the Public Order Act 1986
 7. Advising parents in incidents beyond school jurisdiction that they could inform the police

If malicious or threatening comments are posted on an Internet site or Social Networking Site about a pupil or member of staff, we will also:

- Inform and request that the comments be removed if the site is administered externally
- Secure and preserve any evidence
- Send all the evidence to CEOP at www.ceop.gov.uk/contact_us.html
- Endeavour to trace the origin and inform the police as appropriate.

Working with Parents

We have developed a parental agreement that includes clear statements about e-communications and mobile phone usage. The school seeks to regularly update parents on:

- What to do if problems arise
- E-communication standards and practices in school
- What's being taught in the curriculum
- Supporting parents and pupils if cyberbullying occurs by:
 1. Assessing the harm done
 2. Identifying those involved
 3. Taking steps to repair harm and to prevent recurrence

Code of Conduct

We will develop a code of conduct with our pupils and will explore and discuss cyber-bullying as part of our E-Safety within ICT and also within Collective Worship as appropriate.
